## Summary Public Assessment Report

### non-generics

#### **Vocasept s pomarančovou príchuťou bez cukru 8,75 mg tvrdé pastilky**

flurbiprofen, lozenges, 8,75 mg

This is a summary of the public assessment report (PAR) for Vocasept s pomarančovou príchuťou bez cukru. It explains how Vocasept s pomarančovou príchuťou bez cukru was assessed and its authorisation recommended as well as its conditions of use. It is not intended to provide practical advice on how to use Vocasept s pomarančovou príchuťou bez cukru.

For practical information about using Vocasept s pomarančovou príchuťou bez cukru, patients should read the package leaflet or contact their doctor or pharmacist.

#### **What is Vocasept s pomarančovou príchuťou bez cukru and what is it used for?**

Vocasept s pomarančovou príchuťou bez cukru is a ‘hybrid generic medicine’. This means that it is similar to a reference medicine containing the same active substance, but the bioequivalence with the reference medicinal product cannot be demonstrated because it is locally acting medicinal product.

The reference medicine for Vocasept s pomarančovou príchuťou bez cukru is Strepfen Citroen & Honing 8,75 mg, zuigtabletten.

Vocasept s pomarančovou príchuťou bez cukru for the local short-term relief of symptoms of sore throat such as throat soreness, pain and swelling, and difficulty in swallowing in adults and adolescents over the age of 12 years.

#### **How does Vocasept s pomarančovou príchuťou bez cukru work?**

Vocasept s pomarančovou príchuťou bez cukru contains flurbiprofen. Flurbiprofen belongs to a group of medicines called Non-Steroidal Anti-Inflammatory Drugs (NSAIDs) which have analgesic, antipyretic and anti-inflammatory properties.

#### **How is Vocasept s pomarančovou príchuťou bez cukru used?**

The pharmaceutical form of Vocasept s pomarančovou príchuťou bez cukru is lozenge and the route of administration is oral.

The recommended dose is:

Adults and adolescents over the age of 12 years:

1 lozenge every 3-6 hours as needed.

Do not take more than 5 lozenges in 24 hours.

Take 1 lozenge and dissolve slowly in the mouth. Always move the lozenge in your mouth while it dissolves.

Please read section 3 of the PL for detailed information on dosing recommendations, the route of administration, and the duration of treatment.

The medicine can be obtained without a prescription.

### **What benefits of Vocasept s pomarančovou príchuťou bez cukru have been shown in studies?**

Because Vocasept s pomarančovou príchuťou bez cukru is a hybrid application and is considered to be therapeutically equivalent, to the reference product Strepfen Citroen & Honing 8,75 mg, zuigtabletten, their benefits and risks are taken as being the same as those of the reference medicine.

### **What are the possible side effects from Vocasept s pomarančovou príchuťou bez cukru?**

The most common side effects with Vocasept s pomarančovou príchuťou bez cukru (which may affect more than 1 in 10 people) is inflammation of the mucosa of the oral cavity (stomatitis)

For the full list of all side effects reported with Vocasept s pomarančovou príchuťou bez cukru, see section 4 of the package leaflet.

### **Why is Vocasept s pomarančovou príchuťou bez cukru approved?**

The State Institute for Drug Control decided that Vocasept s pomarančovou príchuťou bez cukru's benefits are greater than its risks and recommended that it be approved for use.
